

# BE THE CHURCH

Even During Quarantine

## BELMONT'S RESPONSE PLAN TO COVID-19

We want to keep you informed about our response to the pandemic as we go through this together. Mid-March through the end of April was like Phase One for us. It was a scramble to make decisions to keep people safe, get online services and groups in place, and make sure all of our people were contacted and had what they needed. Thank you so much for your faithfulness, serving, and giving during this time.

Now we feel we are entering into Phase Two of our response. We are focusing our time and energy into the six steps that you can see below. There are three church-wide steps that we are taking as an organization. Your prayer, giving and serving makes that possible. There are also three at-home steps that we are asking everyone to embrace. Take the time to think about how you and your household can put these at-home steps into action and Be The Church during your quarantine. Post this document on your refrigerator as a reminder to be about the Lord's work!
